CEO

Mr. Elon R. Musk

Tesla, Inc. is one of the world's leading companies in electric vehicles (EVs), battery technology, and renewable energy. Founded in 2003, Tesla has played a major role in accelerating the adoption of electric transportation and sustainable energy solutions.

History

Tesla was established in 2003 by engineers Martin Eberhard and Marc Tarpenning with the goal of proving that electric cars could outperform gasoline-powered vehicles. Elon Musk joined as an early investor and became chairman before taking over as CEO in 2008.
